

D.A.R. ESSAY CONTEST winners in the annual competition staged by DesPlaines Valley Chapter, Daughters of the American Revolution. Mrs. Leo Marcoux, Mokena, Historian for the chapter, is in charge of the contest and may select the schools whose upper grade pupils may compete. She chose St. Mary parochial and the public schools of Mokena. Always of an historical character, the essay this year was on the subject of "George Washington's Advice." Limited library facilities added to the difficulties of the contestants, it was pointed out by Mrs. Marcoux. Appropriately enough the presentation of pen and pencil sets to the winners by Mrs. Marcoux was made in front of a picture of General Washington. The two winners are Lyle Koester, St. Mary school, and Roger Sippel, Mokena public school. Both are eighth graders.

The Mokena boys essays will now be judged for state honors. Essays of state winners compete for the national prize. The essay contest is part of the National History Month program. (Graphic Newspapers Photo)

Soil District Holds Annual Meeting

Orion Samuelson, farm service director for radio and television station WGN had an attentive audience when he spoke at the 1965 annual meeting of the Will-South Cook Soil and Water Conservation District. He stressed the importance of saving natural resources and conserving food, as by the year 2000 the population of our country will reach a point where the land for raising of food will be at a premium. LeRoy Deutsche, director, introduced the speaker.

The dinner meeting was held Tuesday, Feb. 1, at Fred Francis 4-H Exhibition Hall, New Lenox. The meeting was called to order by Richard McHugh, president, to the 270 persons in attendance. The Rev. August J. Bueltmann, pastor of Immanual Lutheran church, Mokena, gave the invocation.

A roast beef dinner was served by the Homemakers Extension Association board of Will County.

John Francis, New Lenox township supervisor, gave the welcoming address with a response by Richard McHugh.

Recognition was given to the winning team of the soil selection contest held in August, Donald Deininger, FFA sponsor, and team members David Sharp, Jerry Schleeter and Randy Newton of Joliet township high school.

A vocal duet by Nancy

and Ken Haglund, with guitar accompaniment, and a clarinet quartet, all students of Plainfield high school, provided the entertainment.

Various reports were given by officers of the district.

Elected directors were: George Archibald, Erwin Schmaedeke and William Stelter.

In honor of his years with the district, 1959 to 1965, a mantle clock was presented to Thomas W. Morgan, who retired from the Soil Conservation Service in December. The presentation was made by Loren Sass in behalf of the cooperators and directors of the district.

Will Elect Two To Arbury School Board

The terms of two members of the Summit Hill board of education will expire in April.

John Hayden was appointed in 1962 to fill the vacancy created by the resignation of Sam LaRocca. He was elected to the post in 1963. During the school year 1964-65 he served as president of the board.

Julius Sandy was elected to the board in 1963.

Neither of these has indicated their intentions with regard to filing for election. The two vacancies are for three year terms.

The first day for filing of a petition as a candidate for the board of education is Wednesday, Feb. 23. The last day for filing is March 18.

N. L. Lions To Hold Valentine Day Ball

The 10th annual dance, sponsored by the New Lenox Lions club as one of its fund raising ventures to finance community activities, is to be held Sunday night, Feb. 13, at D'Amico's 214, Joliet.

after, it was a St. Patrick's day dance. Now it is a Valentine Day party.

There will be a buffet lunch served. Dancing is to begin at 8 o'clock. Music is to be furnished by the Bill Carnegie orchestra.

The affair is open to the public. There will be a prize given away at the dance.

Plan Survey Of Proposed Junior College District

Area residents can expect to hear a lot about the proposed establishment of a Class I junior college district in the next several months.

Kenneth Timm, Joliet attorney and a resident of Cherry Hill, chairman of a citizen group spearheading the junior college movement, is predicting that a Class I district will be a reality by September.

As of now such a district would encompass Will and Grundy counties and a portion of Kendall county. The citizen committee is slated to make a survey to ascertain the potential enrollment, the population, the assessed valuation, the types of curriculum favored in each area and to get an idea as to the feeling of the people on the proposition.

These committees would also assist in the circulating of petitions asking that a referendum be held on whether to set up a junior college district.

It was the hope of those in charge that the petitions would be ready by the end of March so they could be forwarded to the state junior college board. The junior college board would send them on to the state board of higher education. If these two bodies find the petitions sufficient and proposed district meets the requirements set up for a Class I junior college, the junior college board sets a date for a referendum.

A Class I junior college district is a separate taxing body, the affairs of which are administered by a junior college board of education. It could levy taxes and issue bonds.

At a meeting open to the public which was held last week at the West Lockport high school, Dr. Gerald W. Smith executive secretary of the state junior college board, said the state would pay 75 per cent of the site acquisition, planning and construction of a junior college, leaving 25 per cent of the cost resting on the people of the district. After 1971

the state will pay but 50 of these costs, he said.

After Sept. 1, this year, only Class I districts will continue to receive state support at the rate of \$11.50 per semester hour. The state's payment to Class II junior colleges will drop to \$9.50 per semester hour after that date.

There are 106 graduates of Lincoln-Way high school now attending Joliet Junior college. They pay a tuition fee that averages in excess of \$600. Under the new state law students who plan to attend a junior college next September can get a portion of the tuition paid by the Lincoln-Way high school district, if they register their intention of attending junior college at the high school office before July 1.

The district is empowered to levy a 3-cent tax per \$100 valuation to meet these tuition costs. Such levy would bring in approximately \$16,000 in the Lincoln-Way district, school officials figure.

What the tuition costs would be if a Class I junior college is established are

not available. It is estimated by those pushing the college plan that the proposed tri-county district would have more than a billion dollars assessed valuation and that a 10 cent levy would be sufficient to operate the district.

Dr. Smith said that if the 3-cent levy was not sufficient for a high school district to pay junior college tuition fees then it would have to make up the difference from its general education fund.

Officials of Lincoln-Way contend that to use money from the educational fund, which is levied to pay the cost of operating the high school, for the support of another school district would be illegal. They plan to spread the junior college 3-cent levy evenly among those attending next year as far as it will go and the students will have to make up the difference.

If anyone wants to go to court in an endeavor to force the high school district to use its educational fund to support a junior college it was indicated that the board would welcome such a test.

Real Estate Assessment Increasing In Orland

P. J. Cullerton, Cook County Assessor, announced that his office has recently completed the 1965 Real Estate Assessment for ORLAND Township.

The 1965 assessment of \$19,358,714 is an increase of \$775,880 over the 1964 Real Estate Assessment of \$18,582,834.

This increase, approximately 4.2% was due mainly to new construction being added to the assessment roll for 1965. Orland Township covers an area of approximately 36 square miles and is located from 135th st. south to 183rd st. and from Harlem ave. west to the Will-Cook County line.

Cullerton called attention to the fact that the total real estate assessment of Orland Township has increased in the past ten years from the 1955 assessment of \$5,491,561 to the 1965 assessment of \$19,358,714, an increase of approximately 253 %.

"The importance of this increase is the benefit it provides to the rest of us in increasing the base over which the costs of schools and other governmental functions are spread," he said.

"All of us should be aware that our share of the cost of government is unfairly increased if any improvements remain unrecorded. Our staff works year around to pick up new construction, but the number of parcels in the County (over 1,200,000) make it physically impossible to do an exhaustive job every year. For this reason, we ask the assistance of all in reporting unrecorded improvements," he concluded.

Area Winners In Annual Betty Crocker Contest

Marsha R. Peterson of Lincoln-Way high school and Carolyn M. Walsh of Providence high school have been selected as winners of the 1966 Betty Crocker Home-maker of Tomorrow in high schools here.

Each scored highest in her school in a written knowledge and attitude examination administered to more than a half million senior girls throughout the country on Dec. 7. They remain in contention for scholarship grants ranging from \$500 to \$5,000.

Homer Man Rescues Youngsters From Fire

A Homer resident rescued four children from a burning room last Thursday at Goodings Grove and a Joliet man, employed as a lineman for the Commonwealth Edison Co., saved one of the children, who was unconscious when removed from the house, thru mouth-to-mouth resuscitation.

The Homer man is Henry Hiller, Jr., 36, 159th st., an excavating contractor. He was enroute to a tractor center on Ridgeland avenue to pick up some parts for his equipment. He was driving north on Bell rd. and just north of 143rd st. he saw smoke and flame gush out of a house on the west side of the street. It was a 10 or 11-

room frame structure, the second house north of 143rd.

He saw a woman apparently shouting for help and then trying to batter in a door at ground level on the south side of the house. The flame was coming out of windows on the east side of the building.

Hiller halted and ran to the house.

"My children," the woman gasped, pointing at the door.

Fortunately for the trapped youngsters Hiller is a big man and strong.

"I just finished the job the mother started," he said modestly when asked later how he effected the rescue.

"But how did you batter

in that door?"

"With my foot."

Had it been necessary for him to hunt an implement with which to break the door it might have been too late.

When Hiller had the door open he saw the four children sitting on a couch or chair. There was smoke in the room and fire and things weren't easy to see. Hiller gathered up the youngsters and got them outside.

One of them, Peggy, 2 years old, was unconscious. At that point Charles Larson, 35, of 702 Central ave., Rockdale, a lineman for Commonwealth Edison, arrived at the scene and revived the child thru mouth-to-mouth respiration.

The family is that of Eugene and Jerri Chapman. Mr. Chapman was at work at the U. S. Steel plant at Joliet when the fire broke out about 11 o'clock in the forenoon. Mrs. Chapman smelled smoke and ran from the kitchen into the living room and from there attempted to enter the bedroom where the four children were. She was driven back by smoke and flame. There was no telephone in the house so she ran outside to get help and also try to force an outside door leading into the bedroom. She had just started to batter on the door when Hiller arrived.

Besides Peggy the other children are Donna, 5, Debbie, 4 and Cheryl, 14 months. They were all taken to Silver Cross hospital and treated for smoke inhalation and minor burns. All were released but Peggy. She was hospitalized several days.

Hiller faded out of the picture after the rescue and it was not until hours later that firemen learned his identity. Homer, Northwest Homer, Orland Park and Lockport sent firemen to battle the blaze. Three rooms were badly damaged but no definite figure was given for the damage.

C. of C. Board Talks Of Golf Tournament

With Orland Park described as the Golf Center of the World, the directors of the Chamber of Commerce have decided that a golf tournament would be a natural.

At the board meeting at the Farmer's Daughter, presided over by Noel E. Smith, president, Joseph Henely, one of the directors, was asked to form a committee to study the advisability of conducting a tournament.

The directors feel that if a tournament is held it should be of amateur status. A qualifying round was suggested and a registration fee.

Raymond Bones and Danny Brown are in charge of arrangements for the annual golf dinner dance and are to announce a date later.

Norman Uthe and Rosy Cosentino are in charge of Las Vegas night which is scheduled for April 23 at Silver Lake Country club.

The membership will meet at the Farmer's Daughter at 6 p.m. Feb. 15, but not the dinner.

The Chamber of Commerce has had a new phone installed at Smith's store. The number is 349-2972.

Charles Cosgrove and Mrs. Arthur Cocherell.

The newly elected officers will take office the day after the schoolboard election and serve thru the following election.

Robert Snodgrass, present chairman of the nominating committee advises that his committee will soon interview possible candidates for presentation to the Caucus at the nominating meeting. The Caucus will eventually select its two candidates to fill the two vacancies on the school board in April.

Grade Caucus Picks Officers For Year

At the eighth organizational meeting of the Caucus of School dist. 135, Tom Curtin, chairman and Phyllis Westlund, secretary-treasurer were re-elected for the coming year; 1966-67.

The three directors of the executive committee will be Raymond Nihlean, Eldon Shimek and Robert Snodgrass.

The nominating committee consists of Paul Cerney, chairman, Mary Darr, Mrs. B. J. Bishop, Eugend Aspel and Mrs. John Ludes. Two alternates were also elected,

Moss Equipment To Have Pancake Day

Moss Equipment, International Harvester dealer at New Lenox, will have its 11th annual pancake day next Wednesday, Feb. 16.

Free pancakes, sausage and coffee will be served from 9 a.m. to 4 p.m., the serving to take place in the Exhibition building at the Francis 4-H Field, Francis rd., New Lenox township.

In past years this open house was held at the Moss Equipment store on U.S. 30 in the village of New Lenox but because of the expansion of the business and the increased attendance it was

decided by Earl Moss and Harlow Jensen to move it to larger quarters.

Francis Field provides greater parking space and the exhibition hall is large enough to accommodate the diners. There also will be more space to show their line of farm machinery, trucks, tractors, as well as industrial, lawn and garden equipment.

The public is invited. Francis Field is about a mile east of Cedar road. There will be entertainment and prizes.

STILL LIBRARY TODAY — but what will it be tomorrow? That is a fair question at Orland Park grade school these days. The school has a population growth problem, especially in the fifth grade. The new fifth grade, taught by Miss Mary Lou Holcomb is made up of pupils from fifth grades in Orland Park and Orland Center schools. The new class has its sessions in what was the Orland Park school library. The office of Supt. Norbert Jerling wasn't big enough for a classroom but it has been put to work as a library for the time being. Jerling's office, which also served the board of education, has been squeezed into what had been a storage room in the basement, and no one knows what it may become next. These conditions will be rectified when the new junior high building is completed next year. Construction is scheduled to begin this spring. The two pupils in the picture are Mark Cooker (left) and Earl Langreder (right).

Lincoln-Way Takes Two Cage Foes

BY TOM SCARTH

Once and for all the question to whether foreign hardwood is a jinx to the Lincoln-Way quintet was settled last week-end as the Knights rolled past conference foe Reavis 76 to 52 and beat H. L. Richards of Blue Island in a non-conference match 67 to 50.

Reavis, who had been scoring in the upper 60's and sometimes 70's, found the Knights defense a derailment on their offensive maneuvers. They were held to just 23 points in the first half while the Knights dropped in 36.

The third period, which has been the "make or break" period for the Knights all year, came up shining like a genuine new half dollar on a side walk. The Knights increased their lead by 12 points while holding Reavis to a meager 11 for a third period advantage 59 to 34.

The fourth period saw the L-W secondary battle the Ram's final attack which ended with a one point scoring difference 18-17 in favor of Reavis. Final score 76 to 52 Lincoln-Way on top.

Mike Seitzinger paced the Knights with 24 points while shooting a blistering seven for seven from the floor and 10 for 12 from the charity line. Frank Fleck totaled 11 points.

In the game against H. L. Richards the first and third

periods proved to be the decisive stanzas when the Knights out scored the Bulldogs by nine points in each of the two periods.

Keith Schram and Bill Sheppy showed some fine outside shooting during the entire game, both of whom sparked their respective teams; Schram with 15 points and Sheppy with 18.

The Knights held a 35 to 28 half time lead and a 54 to 38 third period advantage entering the final stanza.

During most of the fourth period, the L-W secondary,

Steve Ihde, Tom Tilsy, Tom Hartnell, Pat McCabe, Larry Sorensen and Marc Schonwise made up the Knights fourth period punch and were able to keep pace with the Bulldogs first stringers. The final score again, Lincoln-Way 67; Richards 50.

Bill Stanfill and Karl Warning also scored in double figures for the Knights with 13 and 10 points.

This weekend will be most decisive. The Knights host league leading Homewood-Flossmoor tomorrow night and then travel to Rich East Saturday night.

"Don't Crowd Us," Fire Dept. Entreats Motoring Public

Mokena volunteer firemen are appealing to fire buffs and the just plain curious to give them running room in responding to alarms.

At a recent shed fire off W. Front st. there were so many sightseers that they blocked the road and the fire truck had to take to the fields.

A spokesman for the firemen wished to remind the motoring public there are laws relating to automobiles and fire departments, and he quotes:

"Following fire apparatus prohibited. The driver of any

vehicle other than one on official business shall not follow any fire apparatus, traveling in response to a fire alarm, closer than 500 feet, or drive into or park such vehicle within the block where the fire apparatus has stopped in answer to a fire alarm.

"Crossing fire hose. No vehicle shall be driven over an unprotected hose of a fire department when laid down on any street, private driveway, or such location that is to be used at any fire or alarm of fire, without the consent of the fire department's official in command."

The Mokena department is embarking on a cadet training program, which is to say the training of young men as firemen who have not yet become 21 years of age. The age limit for trainees will be from 17 thru 20. They will be school in fire fighting skills but until they are 21 their activities at actual fires will be limited to dragging and loading hoses. At least half a dozen must enroll as trainees if the program is to be carried out, it was said. Young men interested may call Kenneth Bochman at 479-9310 or Stanley Williams at 479-5641.

Crowder who was fifth in a field of 13 on the trampoline with Kerry Gibbons 12th. Roy Mutsch was fifth in a field of 14 on the sidehorse with Tom Ewing eighth.

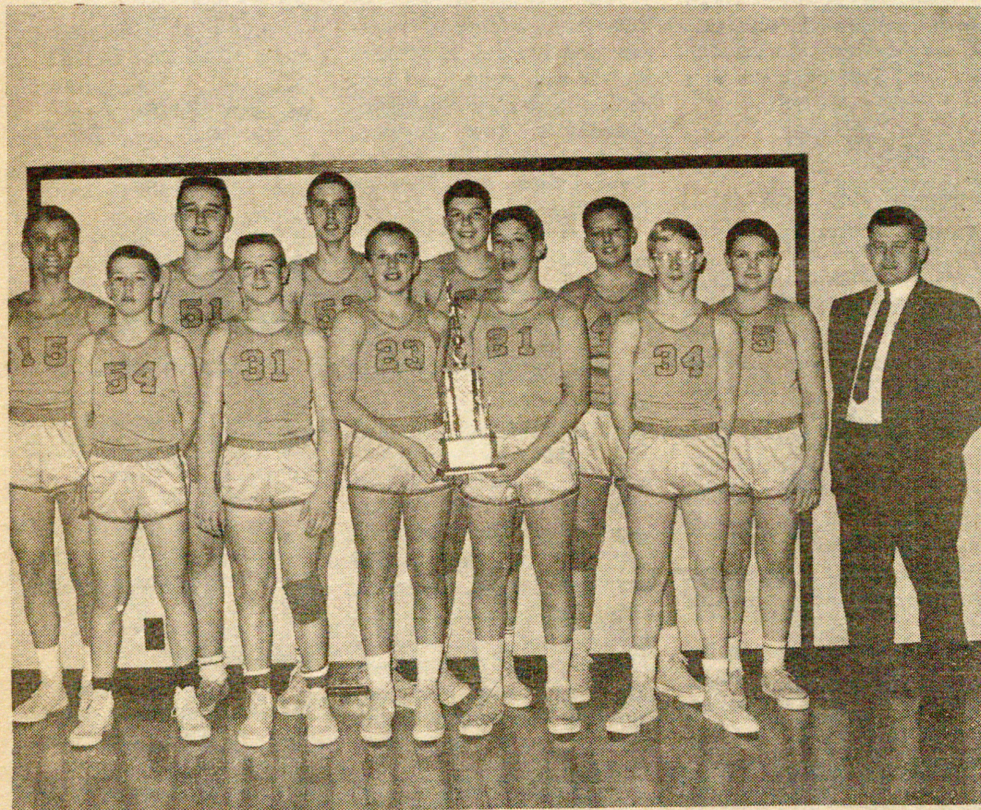

Greg Wasites was sixth in a field of 19 on the high bar and 10th in the parallel bars. Roy Grybash was second in that event in which 16 were entered. Bill Kenny was seventh in a field of 14 on the still rings and Wasites took a 10th. Sellers was sixth out of 14 and George Skiniotes ninth in tumbling.

L-W Frosh Fifth In Gymnastics Contest

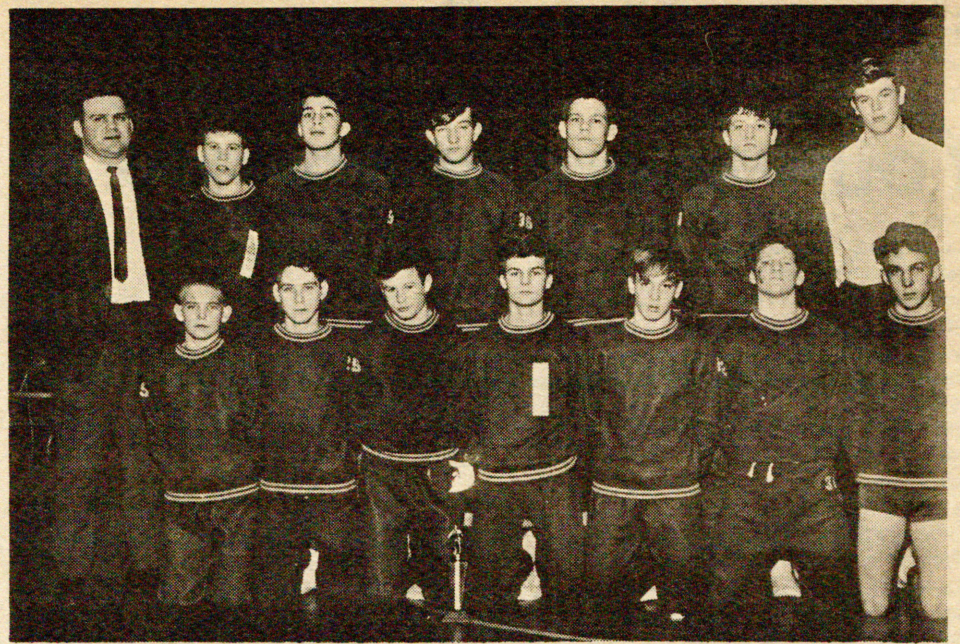

Lincoln-Way frosh gymnastic team finished fifth in an invitational meet held last Saturday afternoon at Rich East.

Lincoln-Way's John Sellers was fifth in overall individual performance. Other performers for Lincoln-Way included David

"Drum" For The Mission

(Editor's Note: The following account was prepared by the Franciscan Sisters of the Sacred Heart, St. Francis Woods, Mokena, relates how material is dispatched to its mission at Belem, Brazil).

Shipping necessities to foreign missions is real adventure. It requires courage, ingenuity, and a superlative degree of that ingredient which makes mission work tick - 'patientia'.

A visitor to a mission packing room is bewildered at the dis-orderly order. Cartons piled high with miscellaneous medicinal samples, clothing of every description, etc., in this area. Boxes and bottles o sorted material in that space...VID-rums, M T or 1/2 packed.

Equipment which does not fit in a drum is shipped in a crate. All other supplies we send in metal drums. They are strong, can be locked, are moisture proof, and are valuable to the missionaries for storing supplies, for protection against creeping and crawling creatures, and as a reservoir for water.

To pack a drum that it is 'shakeproof' tight, with every available nook and cranny completely filled, is a real art, usually mastered with experience. If a slender stick can be pushed down along the inside of the drum, Sister Anna Therese finds ingenious ways of solidifying the contents... a roll of bandage, a small garment- anything to make it move-proof.

Each drum weighs 60 pounds. When packed, the gross weight ranges from 130 to 375 or more pounds. The contents of each drum, together with the weights (gross, loss, net), and measurements (cubic inches or feet) must be printed on the lid of each respective drum. Shipping charges are based on weight and measurement. The average cost of transportation by steamship freight from New York to Belem is \$15 per drum; the drum itself costs \$5, f.o.b. Chicago. Since the Belem mission has no income, all expenses are defrayed by voluntary donations to the Mission Department of the Franciscan Community.

During the past year we

That was "Cold Spell Chester," case you wondered what was keeping the mercury below the zero mark for so long. In fact, during "Chester's" stay, zero seemed like a heat wave.

He's gone now, but he won't soon be forgotten at Northern Illinois Gas. Co. During one 24-hour noon to noon period (Jan. 29-30), NI-Gas distributed a record-breaking 1.86 billion cubic feet of natural gas. To assure its more than 900,000 customers of ample supplies of the fuel, the utility withdrew 918 million cubic feet of gas from its underground storage facilities, also a record high.

"Cold Spell Daniel" is waiting in the wings for his cue. Just how jealous he is of "Chester's" bone-chilling performance remains to be seen.

have sent 120 drums of medicals and clothing, besides 10 crates of special items. Much of the contents was donated. The pharmaceutical companies, hospitals, and other agencies were very generous in giving clinical supplies which the Missionary Sisters had requested, such as Antibiotics, Aspirin,

Empirin, Anacin, Ophthalmic Ointments, Baby Powder, Powdered Milk for formulas, Bitamins, Cough Mixtures, Quinine, Local Anesthetics, Skin Ointments, and Disinfectants. They also need Band-Aids and Dressings, as well as small bars of mild and Hexachlorophene soap.

Only light-weight clothing can be used in Belem, since the thermometer hovers around 90 degrees, and the humidity slides between 90 and 100 degrees. The packages received from the Medical Missions of the Chicago Archdiocese were excellent contributions-- all items were clean, useful, in good condition (including a welcome bolt of cotton dress material), packed, marked,

and ready to put in the drums. First Communion and Wedding dresses are great helps to the parish. If poverty prevents a child or a bride from having a becoming dress, these people fail to receive the Sacraments.

We have just sent our first shipment of eight drums thru the Catholic Relief Services of New York. This agency requires that each drum contains only one commodity, and limits the contents to medicals (not clinical supplies) and clothing. The detailed packing lists are forwarded by the New York office to the Program Director in Brazil for free entry privilege assurance. Since our shipment was approved, we were directed to forward it to New York. From there to Belem CRS will take care of the transportation charges.

Dries your clothes with the same kind of gentle radiant heat you get from the sun.

Makes it easier to be a good cook with precise, temperature-calibrated controls.

Gives you greater heating comfort, greater flexibility than any other type heat.

Only Electricity—

Flameless electric drying is gentle, because it works with radiant heat like the sun. The only difference is it's controlled. You dial exactly the heat you need, for the clothes you want to dry. Whites stay white, colors stay bright, sizes won't change because of harsh overdrying or scorching. Another thing. Radiant electric dryers are flameless, so there are no fumes or by-products of combustion. Clothes come out clean and fresh as all outdoors.

Larger heating surfaces allow cooking at lower temperatures, require much less water, so food retains more vitamins, flavor, color and texture. Oven cooking is faster because less pre-heating is required. More moisture is retained because only electric ovens are insulated on all six sides. Meats are juicier, cakes richer. And because electric cooking is flameless, kitchens stay cooler, pots and pans and kitchen walls stay cleaner.

Electric heat offers 5 basic systems that can be used separately or teamed together, depending on heating requirements. Advantages include: room-by-room temperature control; uniform temperature; elimination of hot and cold spots; simple, low-cost installation of air conditioning where desired. What's more, there's no flame, so it's safer—and, with no burning fuel residue, there's nothing to create dirt or run up decorating costs.

Peephole Driver Shouldn't Expect To Reach Old Age

One of the most dangerous
winter driving practices is

"peephole driving," cau-
tions the Chicago Motor
Club. The motor club warns
that far too many drivers,
after a heavy fall of snow,
do no more than turn on
their windshield wipers to

make holes to peep through.
Similarly, only small areas
are scraped clear when the
windshield becomes ice-
glazed.

Almost as dangerous, says
the motor club, is the prac-
tice of removing all the snow
from the windshield, and

then thoughtlessly neglecting
to clear the rear window.
Motor club safety experts
stress that a driver is ask-
ing for trouble if he doesn't
know what's happening
behind him.

Open Letter from the Hirschs

Dear friends,

It is a tribute to the
public confidence in funeral
directors that over 50% of
funerals conducted in this
country come from fami-
lies previously served by
that funeral director.

Another large percent-
age come to a funeral
director by recommenda-
tion from someone he has
previously served. Such
public confidence is our
greatest satisfaction.

Respectfully,

Baltz Candidate For 41st Dist. Senator

Former State Representative Meade Baltz of Joliet announced today he is a candidate for the Republican nomination for Illinois Senator in the new 41st Senate district.

The 41st comprises all of Will county with the exception of Lockport, Dupage, Wheatland and Plainfield townships, and includes all of Grundy County.

Baltz, 53, represented Will county for two terms in the house of representatives. He was elected in 1960 and re-elected in 1962.

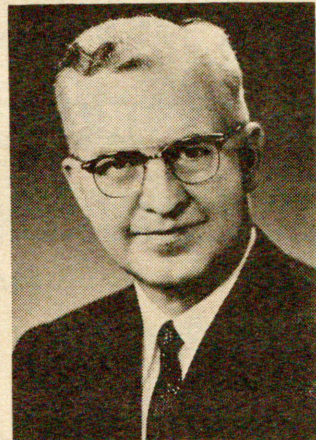

During his two terms in the legislature, Baltz built a record as a key spokesman for local governmental units interested in legislation geared to make township, city and county governments operate more efficiently and economically.

In 1961, the Illinois Township Officials Association awarded Baltz its plaque for outstanding accomplishment in the field of local government. He received a rating of "Excellence" in 1963 from the Illinois Agricultural Association for his voting record and strong interest in the problems of the farmer.

In 1963, Rep. Baltz was honored by the Young Republicans of Will County when they selected him as the Outstanding Male Republican for the year.

Baltz began his governmental career by election to the Will county board of supervisors in 1951. He served as chairman of the finance committee and was elected chairman of the county board in 1953, holding this office until elected to the legislature. He is currently precinct committeeman of the 23rd Joliet pct.

During his tenure as chairman of the board of supervisors, Baltz insisted upon operation of the county government within its income and was instrumental in achieving equitable levels of tax assessment throughout the entire county.

MEADE BALTZ

In the interest of strengthening the area's economy, he served as chairman of the important Industrial Development Committee of the Joliet Region Chamber of Commerce for nearly two years. Its successful program for promoting industrial growth materially aided in the location of three new industries in Will county.

He presently is chairman of the A.E.C. Project Committee which has worked diligently to place and keep the Joliet Site in high priority position with the Atomic Energy Commission when a location is selected for a new proposed 348 million dollar Accelerator.

Baltz was born on a farm in Grundy county, and is a lifelong resident of the senate district. He is the owner of a retail paint and wallpaper business in Joliet and is executive secretary of the Will County Contractors Association. He is past president of the Community Chest, Red Cross and other civic organizations. He is also a former director of the Illinois Welfare Association, the Joliet Chamber of Commerce and the Kiwanis Club of Joliet.

Meade and his wife, Lydia, reside at 600 Buell avenue, Joliet. They have seven children, five of whom are presently in college. Mrs. Baltz is a teacher in the Joliet public grade schools.
